

Complying with Ontario Ministry of Transportation requirements, the TC-54 channelizer drum is designed to be easily rebounded after impact. Made from soft, ductile polymer, then coated with conformal film, the TC-54 has all the flexibility required to be reboundable. Although it is sometimes possible to reshape some drums by hand, the reforming service will give a second life to drums that have suffered a severe impact. In fact, the cost of replacing damaged drums far outweighs the cost of reforming them, resulting in substantial savings. The TC-54 channelizer drum is the ideal tool for all worksite signage needs.

**Technical Informations**

|                           |   |
|---------------------------|---|
| <b>Product N°:</b>        | TC-54   |
| <b>Dimensions</b>         |   |
| Height:                   | 1 000 mm (39,37") w/o handle<br>1 800 mm (70,86") w/ handle |
| Diameter:                 | 330 to 360 mm (13 to 14,17")                                |
| Weight (w/o stabilizer):  | 2,72 kg (6 lbs.)  |
| <b>Matériaux</b>          |   |
| Marker:                   | Polyethylene (PE) with UV protection                        |
| Sheeting:                 | Diamond Grade – Type VIII                                   |
| Stabilizer:               | Recycled rubber   |
| <b>Available Colours:</b> |   |
| Marker:                   | Black   |
| Sheeting:                 | Orange  |
| Stabilizer:               | Black   |

- Fully reformable, including sheeting
- Easily stackable
- Possibility of attaching an LED beacon to the handle

**Options**

Stabilizer made of recycled tire sidewalls  
Ø 406 mm (16")  
10 kg (22 lbs)  
#PES-22  
or 15 kg (33 lbs)  
#PES-33

Round moulded rubber stabilizer  
Ø 406 mm (16")  
10 kg (22 lbs)  
#ECO-22-R  
or 15 kg (33 lbs)  
#ECO-30-R

Hexagonal moulded rubber stabilizer  
Ø 406 mm (16")  
10 kg (22 lbs)  
#ECO-22  
or 15 kg (33 lbs)  
#ECO-30

Hexagonal moulded rubber stabilizer with handles  
Ø 406 mm (16")  
10 kg (22 lbs)  
#ECO-22-poignée  
or 15 kg (33 lbs)  
#ECO-30-poignée
